

THE GREAT OUTDOORS SUMMER CAMP 2024

Legacy Academy
FOR CHILDREN®

WEEK 1 BASE CAMP

Come along for an exciting camping adventure! On our first day of Spring Break we will make our tents, set up base camp for the week and map out the fun ahead.

WEEK 2 CAMPING GEAR

Hey there, young adventurers! Pack your bags and get ready to explore the great outdoors! But wait, what should you bring? What will you need to sleep well in the great outdoors? And how will you see in the woods at night after the sun has set? What snacks work best when camping? And how about a magnifying glass for examining bugs and plants up close, and a notebook for jotting down your outdoor discoveries? Pack your sense of adventure and learn how to get ready for an unforgettable exploration of the great outdoors!

WEEK 6 NORTH AMERICAN WILDLIFE

Wildlife can be fascinating! We'll learn about the difference in brown bears and black bears, nocturnal animals like owls, bats and opossums, and so much more!

WEEK 7 PLANT LIFE

Calling all budding botanists! This week we will enjoy some hands-on activities and learn fascinating facts that will ignite your curiosity and spark your imagination about the importance of plants on the forest floors, the magic of towering trees and the beauty of wildflowers. Grab your magnifying glass and your sense of wonder, and join us for an unforgettable journey into the enchanting world of plants!

WEEK 3 WILDERNESS SURVIVAL AND SAFETY

The great outdoors can be a lot of fun, but it's important to stay safe while you are on your adventure. This week we will learn about outdoor safety, from protecting your skin from the sun to how to react to any wild animals you may see on your camping trip. Join us as we learn to stay safe as we explore and enjoy the beautiful world outdoors.

WEEK 8 INSECTS

Bees and insects play an important role in the world around us! They help plants with pollination and maintaining healthy soil. We will learn more about the fascinating world of insects and their role in the healthy ecosystem of the great outdoors.

WEEK 9 LAND FORMS

Get ready to explore the diverse landforms that make our planet so unique. This week we will learn about towering mountains, winding rivers, oases, desert islands, mesas and plateaus and everything in between. The week will be challenging and fun: whether we're scaling mountains on a rock-climbing wall, playgrounds or charting the course of a river in our interactive water table, every moment will be filled with adventure and discovery.

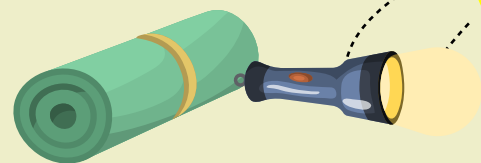

WEEK 4 CAMPING ACTIVITIES

Join us as we make fishing poles, catch some fish and cook them up on a stove! We'll hike and explore; then share stories around the campfire.

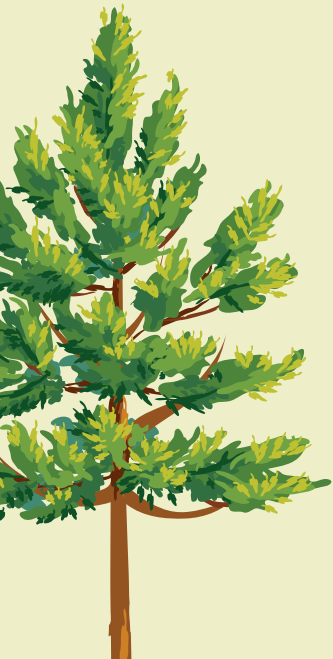

WEEK 5 STAR GAZING

Camping fun doesn't stop when the sun goes down. Grab your cozy blanket or sleeping bag and spread it under a canopy of twinkling stars as we discover distant planets and sparkling constellations. We will learn about shooting stars and the myths and legends behind each constellation this week. So get ready to embark on a cosmic adventure that will leave you starry-eyed!

WEEK 10 WATERWAYS

Waterways transport life-giving water throughout the ecosystem. They also help us move from place to place. We will experience the wonderful gifts of water – from keeping us hydrated to providing a resource for kayaking, swimming and waterplay.
